HOW TO USE HAND SANITIZER

1 Take a coin-sized drop on your palm.

2 Rub hands together, palm to palm.

3 Spread sanitizer over and under fingernails.

4 Rub hands until they become dry.

FUN FACTS:

- Sanitizers cannot replace soap & water.
- In case of visibly dirty hands, sanitizers are not sufficient.
- Sanitizers do not eliminate all types of germs.
- Use products with at least 60% alcohol.
- We could save a million lives/year, if everyone washed hands routinely.
- 50% of all food-borne outbreaks are caused by poor hygiene.
- Sanitizers do not offer protection against air-borne viruses.
